Turnkey Electrical & MEP Solutions

Delivering exceptional quality and on-schedule performance in comprehensive electrical and instrumentation contracting services.

This encompasses the supply, installation, testing, and commissioning for blue-chip Indian and multinational clients.

Turnkey Electrical and MEP works Involves Supply, Installation, Testing and Commissioning of:

- HT Yards, Transformers, HT & LT Panels
- External Electrical Works to support DC Infra
- Complete Electrification of Internal DC - Utility Area & Data Hall
- Cabling & Cable Management System, Receptacles, Lighting & LMS, UPS & Battery Bank, C Struct, Seismic Supports, Earthing, and LPS

“

Safety is our priority without any compromise, and at EVIO we take this commitment very seriously as our company motto.

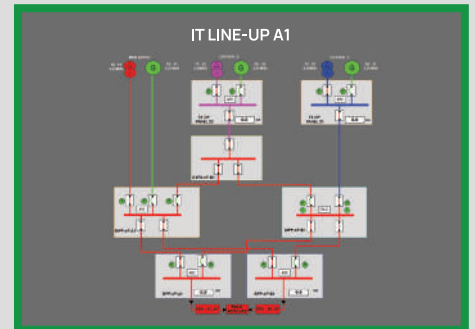

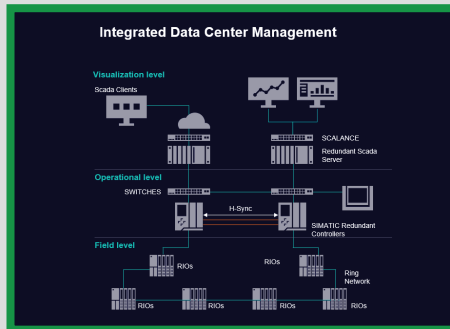

Industrial Automation

Progression through innovation and sensible use of the latest technologies have helped us establish ourselves as a leading supplier of Integrated Industrial Automation Systems.

We extend a wide range of Industrial Automation services in the following areas:

- Integrated automation and control for mission critical data centre and ensures 24x7 operations.
- Hi Redundancy on all levels from redundant controllers to redundant interface modules and networks.
- Monitoring of Numerical Relays, Power Quality meters, breaker status for HT, MV & LV Panels.
- Load distribution of Catcher units controlled through PLC in case of Main power failure.
- Protect Critical Circuit Breakers from overloading and tripping, by alarming and automatically shunt tripping of power (PDC Breaker) from its Utility power source to Catcher.

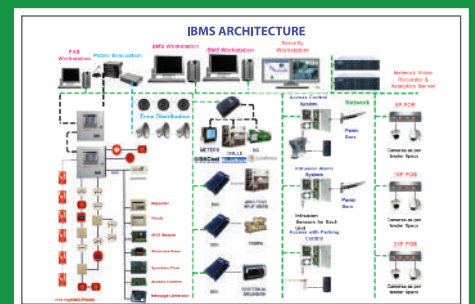

Building Automation

Offering Expertise in Engineering, Execution, and Commissioning of Smart Building Solutions.

From cooling systems to lighting and security, we offer smart and sustainable building automation solutions that not only improve comfort but also reduces operational costs and environmental impact.

Our building automation service portofflio includes:

- SITC of Fire Alarm & NOVEC Gas Suppression System for DC
- SITC of VESDA System and integration with the Fire Alarm
- SITC of CCTV and Biometric System
- Integration of Fire Alarm system with Public address and Access control system
- Trends and Alarm configuration on BMS
- Lighting and Dimming control system
- Hot aisle and Cold Aisle temperature monitoring on BMS

Intelligent Engineering For Smart Data Centers
